SOURCES OF FUNDING:

Continuation of the Foundation's mission of "*promoting excellence in the insurance industry by underwriting the education of current and future employees*" depends on a strong and expanding donor base. As the founders of this foundation, members of NAIW have established a strong donor base. As demand for scholarships increases from across the insurance industry and colleges and universities, efforts must be made to involve the collective industry. Such efforts of the insurance industry will ensure the Foundation's ability to increase our number of scholarships for decades to come.

As a 501(c)(3) non-profit Foundation, tax-deductible contributions from individual, non-profit industry groups, foundations, corporations, and other industry related businesses support the Foundation's mission.
